Summary report

2018-10-05 - 2019-01-05 Total 456 h 52 min

Anhphuphan29, Châu Hoàng Phúc, Kim Ninh and 2 more selected as users FoodMap selected as projects

Users / Time entries	
Phuocpr1998	106:20:22
Học lý thuyết NMCNPM	16:09:39
Implemet Forgot password function	6:04:34
Học lý thuyết - Android	5:42:13
Implement register restaurant layout	3:38:39
add dish layout	2:51:38
Implemet autocomplete Place in Map layout	2:27:46
Restaurant manager (activity)	2:14:18
Fix comment layout and marker click	2:07:24
Restaurant manager	2:03:28
Sermina UML	2:01:28
Cài đặt chức năng cho giao diện Login (Guest, Owner) Login Facebook	1:58:50
Fix read file, base64 and register restaurant activity	1:55:39
Thêm offer discount và cài đặt api trên webservice	1:48:35
Learn OpenStreetMap	1:47:16
deploying notify server	1:44:43
Cài đặt webservice	1:42:38
implement comment layout(function)	1:37:58
Implement register layout and register function	1:36:49
fix load data from database local	1:35:10
Giao diện menu application (guest, owner and not login)	1:33:34
Thiết kế lại database (thêm Discount)	1:28:00
add a new api direction	1:27:11
Thiết kế database	1:26:53
Cài đặt navigation menu	1:26:06
Quay lại với OpenStreetMap	1:22:40
Cài đặt function và procedure cho database	1:18:33
Cài đặt lớp FoodMapManager	1:17:37
Implement Notification	1:15:39
checkin api	1:15:00
Load data to favorite activity	1:10:00
add login count not over 3 login fail	1:09:00
Cài đặt sự kiện cho các item ở navigation menu và chức năng đăng nhập owner	1:08:06
Thiết kế class Diagram	1:07:50
Proposal report	1:06:59
Vẽ sơ đồ usecase	1:06:32
Seminar github	1:00:50
Add Carto map into project android	0:58:07

add marker restaurant into map	0:57:43
Gặp giáo viên thực hành	0:57:26
Cài đặt xử lý giao diện map (Marker, Mylocation Marker)	0:56:31
update security for api	0:52:06
check function	0:51:00
Fix missing google play services and check login in MainActivity	0:50:53
implement func favorite in android (parse json)	0:49:51
Loading layout and save restaurant into database	0:46:05
Chỉnh sửa sơ đồ use-case	0:45:14
add rank api and delete owner procedure	0:45:11
Implement Favorite in webservices	0:44:53
Implement register restaurant layout (choose location)	0:43:21
add share and num Favortie	0:42:49
add toolbar for login and register layout	0:39:24
fix map loading	0:38:13
Cài đặt lớp FoodMapApiManager	0:37:35
Fix delete Restaurant	0:37:26
Cài đặt model cho project FoodMap	0:36:50
fix scroll layout	0:35:45
Add icon marker	0:34:54
Loading layout	0:34:21
Trao đổi công việc với nhóm - (Add tài khoản thành viên vào trello và toggl team)	0:32:02
fix layout	0:31:56
Add database local	0:31:26
Thêm API (create Discount)	0:31:26
add avatar for owner	0:29:53
Trao đổi công việc với nhóm trưởng	0:28:15
Thiết kế giao diện đăng nhập cho chủ quán	0:26:12
add button my location into map	0:26:05
Add data test vào database	0:19:54
implement comment layout	0:19:15
register restaurant activity	0:17:50
Cài đặt giao diện login (guest, owner)	0:16:55
fix load data from local database	0:13:46
Thiết kế giao diện đăng nhập cho guest	0:13:23
Hướng dẫn thành viên chuyển time đã bấm sang project của nhóm	0:13:08
fix api comment and comment table	0:10:25
Fix layout	0:09:56
set portrait for app	0:09:29

Fix update restaurant	0:08:01
Fix autocomplete Search	0:07:03
Thêm task trên trello	0:06:34
Thêm thẻ công việc trên trello	0:03:59
Chỉnh sửa thông tin team - workspace trên toggl	0:02:38
Chỉnh sửa tag trên trello	0:02:27
Ghi thông tin tīhh cách trên git nhóm	0:01:55
Implement FoodMap) Admin	0:01:36
Lecongluan111198	95:06:48
Learning software engineering	17:53:45
implement RestaurantInfo class	13:07:49
implement owner class	11:54:19
Learning android	6:53:28
learning software engineering	5:41:00
implement Find way between 2 positions	4:43:00
learning android	4:01:38
implement Favorite layout	4:00:00
learning how to implement Navigation Drawer in android	3:21:04
learning OSM	3:11:00
implement layout showing the paths	3:00:00
learning android development	2:30:00
implement DownloadImageTask	2:28:00
learning some tool that could help for the project	2:09:10
making loading event	2:01:11
Learning UML	2:00:40
Doing android	1:50:19
Doing layout	1:44:10
Fix error display a number shares, favorites, rates and check-in	1:35:00
doing mockup	1:01:13
fix error crash app when click on retaurant of favorite restaurant list	0:00:02
Châu Hoàng Phúc	87:37:37
learning	8:13:02
Learning	7:41:27
implement api	6:05:27
fix request	5:55:32
fixed parse json and taskcallback	4:46:08
learn to use maps api	4:41:46
learning android	4:17:25
implement parse json	4:17:03

test parsejson	3:56:00
Learn to use widget in android	3:34:55
sequence diagram	3:22:31
test case	2:45:33
Learn to config xml layout in android studio	2:36:51
learning use api openstreetmap	2:25:48
implement layout	2:19:44
design layout	2:10:40
research nodejs to implement order) server	1:56:00
implement show offer	1:54:00
fix getOrder	1:49:11
fix app	1:42:36
implement api (part 2)	1:33:10
test app	1:33:08
add guest	1:21:33
Learn android	1:20:11
Learn to use maps api	1:09:30
Suy ngh□chức năng của ứng d□ng	1:06:51
direction request	1:03:11
Design layout	1:02:23
